

Walking is fun in Fairfield!

We live in Fairfield and we love walking, my children, our dog and I. We look at letterboxes and learn the numbers, we look at our neighbours gardens and pick the flowers (but only the ones hanging over on the street!!), we watch the black cat dashing away from our eager dog, we watch the cars, looking left and right and left again before we cross the road, and we talk to others, who are also out of their houses and out of their cars. We love walking and connecting with others in our community.

This is a drawing that my daughter did. It's a picture of us walking in the sun, butterflies all around and I think the orange triangle shape is a tent/cubbyhouse!
